vaatimuksenmukaisuustodistuksen CO2-arvo määrittää lopullisen autoveron määrän sekä kokonaishinnan. Ilmoitetut kulutus ja CO2- arvot ovat WLTP-testistandardin mukaisen laboratoriotestin mukaisia tuloksia ilman lisävarusteita. Aiotapa ja muut tekijät (tieolosuhteet, ulkolämpötila, kuormitus, ajoneuvon kunto jne.) vaikuttavat auton polttoaineen kulutukseen ja CO2 -päästöihin, joten käytännön kulutus voi poiketa mitatuista arvoista.
