

DUCATO

GOODS TRANSPORT

MORE THAN WORK

PROFESSIONAL

Change the way you make your working day.

Forget about tangled roads,
heavy journeys or boring days:
New Ducato offers new perspectives,
easy paths and more pleasant working day.

Have you ever think how better your work can be?
Ducato is the right vehicle to realize how enjoyable
is doing something you were not used to do.

EXPLORE THE WIDE RANGE

New Ducato has the only goal to make your day easier, so no matter which version you choose, it won't let you down. Among more than 10.000 combinations, you will find the vehicle perfect for your work.

Ready to go.

Don't settle for a good day,
when you can have a great one!

If good morning starts with good habits, your working day can be greater than what you think. Ducato gives you the right gear to face your business. Its fresh and innovative style is just a glimpse of your day. A new glance on the road is provided by the new front grille and by the FULL led headlamp, the best in terms of exterior lighting. Made of 3 characteristics elements, a new DRL LED "ray of light" that evolves the classic iconic Ducato's "sign", a high and low LED beam and a swiping LED turn indicator will give you a recognizable standing on the road. Its sharper style and its cold white light make your vehicle unique and distinctive both off or on.

New front grille is available in two finishing and comes with a very modern style, highlighting the new FIAT logo.

The new technological and stylish LED headlamp offers a 30% more performing light, if compared to current halogen headlamp.

What if you relax today?

Comfort, technology and driving pleasure with you along your whole working day.

Nowadays the tools you need for your job aren't only the ones you find in your tool-kit. Ducato offers you much more to make all your everyday tasks easier and more efficient. The high-tech and modern style from the latest passenger vehicles' interior trends arrive in the new Ducato range without changing its functionality oriented design. From maps to driving assistance or work data and even music, all the information you need is now available on the new Full Digital Cockpit.

Ducato interior comes with a real breath of freshness, involving every feature: the new range of seats provide greater comfort and an increased wrap-around perception, door panels offer a new robustness and more storage space, the three spoke style steering wheel, available in leather, give a better grip.

Enjoy the new cabin interior with its innovative design, where everything is firmly located in up-to-date dashboard and always at your fingertips.

The new Eat and Work seat bench turns out to be the perfect assistant in working and break moments: equipped with a front table that can accommodate notebooks, tablets, lunch trays, it can rotate towards occupants for maximum comfort. Not to mention the up-to-date-design and high tech details of dashboard and cockpit. The new full digital cockpit, at the top of the offer, shows a central 7" display to provide vehicle's info tailored on driver's needs, 3D maps and route information with 10" radio and driving assistance when coupled with ADAS features. A new and modern design for the 3,5" TFT cockpit completes the offer. Everything is aimed to give more comfort, to be better looking and more user friendly.

Comfort driving pleasure.

If you have worked in a comfortable Ducato so far, imagine that it can be even better. One of the feature that will enhance your driving experience is for sure the new electric power steering wheel. The new power supply technology creates the perfect optimization between steering effort and speed, allowing then higher steering precision, driving pleasure and lower effort during parking maneuvers. It also winks to the nature by improving fuel consumption and reducing CO₂ emissions. From the comfort of his seat, the driver can also simply switch on a button on dashboard to activate the electric parking brake, preventing the driver to be always in contact with the handbrake lever, when applied. Easiness and speed are a real gift for a busy worker so which best way to start your day with a simple click?

Never again with low battery! With the new wireless phone charger located in a safe place of your dashboard your mobile will always be battery full.

Free your vehicle layout from handbrake lever, bracket and cables. The new electric park brake option provides greater comfort in everyday usage.

Forget to search for your key fob, leave them in your pocket and simply press the button on the exterior handle, unlock the doors, accommodate yourself on the seat and press the switch on steering column to turn engine on. Close your working day in the same easy way, turn your Ducato off and lock the doors. All in a switch, ain't easy? No more phone wires in your cabin, always fully charged! Ducato offers you a safe and firm place on dashboard as a wireless charger location, through which your mobile can charge and, combined with the new Uconnect™ radio, work at the same time.

Keyless Entry and Go system allows you to lock and unlock the cargo and cabin doors and turn the engine on and off, simply having your Ducato key fob near to you.

All in.

Face your day with a new mood and enjoy an all inclusive network of infotainment services.

The new infotainment system takes in-vehicle information, comfort and entertainment to the next level. With an offer made by 3 new radios, Uconnect™ Technology offers you all the tools and services to help your working day to become smarter and with less frictions.

The new Uconnect™ 10" radio, at the top of the range, will offer you a complete radionavigation system integrating 3D TomTom maps and Apple CarPlay / Android Auto™ with very comfortable wireless mirroring system through which, with a simple touch, you can manage the most important controls of the vehicle. A very useful voice command "HEY FIAT" and steering wheel commands will improve the interaction between you and your new Ducato. The Uconnect™ 7" radio with wireless integration with Apple CarPlay and Android Auto™ and Uconnect™ 5" colour display radio complete the new Ducato's connected infotainment offer.

Just simply choose the one that fits better to your needs, turn on the radio and enjoy your next day.

Apple CarPlay is a safer, smarter way to use your iPhone in your car. It lets you get directions, make calls, send and receive messages, and listen to music, all in a way that lets you stay focused on the road.

Designed for the safest driving experience whilst staying connected, Android Auto™ delivers integrated steering wheel and voice commands.

Uconnect™ 7" radio with 7" touchscreen color display, Android Operating System technology and steering wheel controls.

Connect your world.

Give a signal, a full range of services is always ready for you!

For a seamless connectivity journey among your mobile, network devices and your Ducato, a full range of Uconnect™ Services is available with the new Uconnect™ 7" e 10" radio. Explore all the advantages included with connectivity pack and even more you can add, because you are the core of our network.

MY ASSISTANT

Designed to offer your 24/7 assistance with features such as SOS Call, Roadside Assistance and Customer Care.

MY REMOTE

Designed for the remote management, allows the control of features such as Remote Operations, Drive Alerts, and Vehicle Finder.

MY CAR

Designed to monitor and take care of new Ducato's health, thanks to Vehicle Info and Vehicle Health Report.

MY NAVIGATION

Designed to help to find your way in the smartest way possible, thanks to live navigation services like Send&Go, POI Search and Last Mile Navigation, Map Update over the air and much more.

MY ALERT

Designed to protect Ducato, with Theft Alarm Notification and the Stolen Vehicle Assistance Services.

MY WIFI

Surf the Internet and connect multiple devices to the New Ducato at the same time and use Amazon Alexa Voice Services.

MY FLEET MANAGER

Manage your Ducato fleet with maximum efficiency and safety: maintenance, mission, routes, reporting and real time dashboard to monitor your fleet with the possibility to integrate it with your already existing fleet telematic solutions.

Download the FIAT mobile app or go to the official Fiat Professional website to take advantage of all the services.

Raw Data Integration

New Ducato Connectivity is open and interoperable with 3rd party solutions thanks to raw data integration. It can provide key fleet vehicle information (vehicle usage, deep diagnostic info, critical event alerts, remote services), to the enterprise customer and their existing fleet telematics service provider.

Future looks after you.

Ducato shows all its pioneer attitude.

Always one step forward the others for over the last 40 years, Ducato continues to evolve itself: it is the first vehicle in its category offering the Autonomous Driving Level 2; it guarantees to have a new advanced protection for your daily journeys making your job safer and more thoughtless. Ducato reveals to be your trusted co-pilot accelerating, braking and keeping you within the lanes completely on its own. Are you ready to make a step in the future?

Thanks to the new electric architecture and the innovative electric power steering system, safety and technology are the core of what Ducato offers to its consumers. Level 2 autonomy elevates Ducato from a single driver assistance system to multiple advanced driver assistance systems (ADAS) that can take over steering, acceleration, and braking events in different scenarios.

ADAPTIVE CRUISE CONTROL (WITH STOP AND GO FUNCTION)

When included in the pack Co-Driver, the Adaptive Cruise Control is enhanced with Stop and Go functionality, leading the vehicle to a complete stop when the vehicle in front stops and to re-start when traffic gets moving again. Available only in pack CO-DRIVER.

TRAFFIC JAM ASSIST

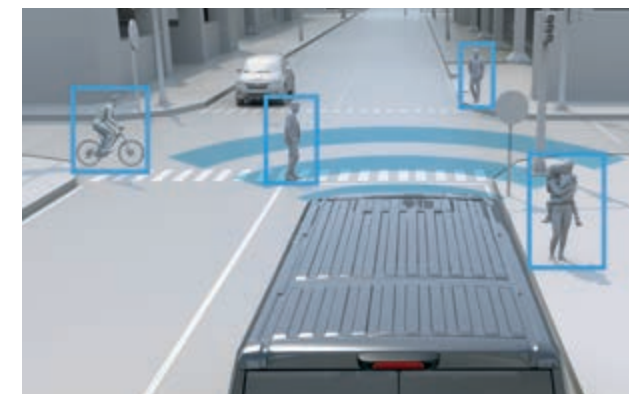

The new Ducato can autonomously set the vehicle ahead as a target to execute lane centering in heavy traffic on all roads and monitor vehicles driving in parallel, adapting its lateral trajectory and avoiding potential impacts. If the Traffic Jam automatically brings the Ducato to a complete stop, it automatically returns to the set speed as soon as the traffic gets moving again. Available only in pack CO-DRIVER.

A range of brand new ADAS will be available in your new Ducato giving you the best in term of safety and support both when driving and parking. All new and existing ADAS on Ducato work in a perfect synergy, they are always available and works wherever your job will take you, whenever you want.

LANE CONTROL

When included in the pack Co-Driver the lane control system becomes lane centering. The New Ducato detects lane markers and road edges and, if needed, autonomously steers to keep itself in the center of the lane. Available only in pack CO-DRIVER.

AUTONOMOUS EMERGENCY BRAKE CONTROL (+ PEDESTRIAN AND CYCLIST DETECTION)

AEB Control increases functionalities and detects pedestrians and bikes other than vehicles; The new Ducato will either alert the driver and trigger an autonomous emergency braking.

LANE CONTROL

Lane Control system prevents unintentional departure from the lane, with the help of a forward-looking camera on windscreen performing corrective steering interventions to prevent the vehicle from crossing painted boundary lines or even roadside edges. A tactile warning in the form of torque applied to the steering wheel, together with visual and audible warnings on the instrument panel display, to aware the driver they must stay within the lane limits.

ADAPTIVE CRUISE CONTROL

"Sets and automatically adjusts the speed to maintain a safe distance from vehicles ahead, providing functionality between 30 km/h and vehicle top speed. When vehicle is equipped with Traffic Sign Recognition, the Adaptive Cruise Control becomes Intelligent Adaptive Cruise Control, providing proposal to driver to adjust speed according to speed limit detected."

INTELLIGENT SPEED ASSIST

Intelligent speed assist helps avoid speed violations at any time, detecting speed warning signs on the road and setting the vehicle speed limiter accordingly.

TRAFFIC SIGN RECOGNITION + HIGH BEAM RECOGNITION

Traffic Sign Recognition helps to avoid speed violations at any time, detecting speed warning signs on the road, while the High Beam Recognition automatically regulates beams based on the distance of vehicles coming on the opposite way.

AUTONOMOUS POST COLLISION BRAKING

In case of an accident event, automatically apply brakes to prevent secondary potential collisions. Standard on whole range.

360° PARKING SENSORS

Sensors, surrounding the new Ducato at 360° – located on front, rear bumpers and side moldings – alert driver by acoustic and visual warning when approaching obstacles or going through tight spaces. Acoustic warning increases in beep frequency as the obstacle comes nearer, until it becomes continuous. Visual warning showing the distance from obstacle are displayed on cluster screen.

ATTENTION ASSIST

The system monitors driving patterns and detects fatigued driving. If the system detects inattentive driving patterns, an audible sound and message on the display panel will request the driver's attention.

CROSS WIND ASSIST

Cross Wind Assist works at speeds over 65km/h and intervenes on braking to help stabilize the vehicle through strong crosswinds, helping the vehicle to prevent from drifting out of its lane. Standard on whole range.

DIGITAL CENTRAL MIRROR

Central Rear view Mirror becomes a digital 9" LCD high resolution display. When driving it provides an unobstructed and clear view of the road behind at medium and long distances, thanks to a wide-angle, high-definition camera located inside the rear third stop lamp bracket.

ACTIVE PARK ASSIST

When looking for a free parking, the new Ducato will start scanning for a parking slot. When found it will start a parking manoeuvre, and the driver needs only to accelerate and brake by the pedals, while vehicle autonomously performs steering manoeuvres, and indicates when to move forward or backward.

RAIN AND DUSK SENSOR

The sensors are activated by water and dusk, controlling the windscreen wipers automatically or switching on the main-beam headlights when the lights go down.

TRAILER STABILITY CONTROL

The system is able to detect when the trailer is starting to oscillate and corrects any dangerous trailer swing, through a combination of torque reduction and wheels braking, to bring the trailer and the vehicle under control. Standard on whole range.

REAR CAMERA (WITH DYNAMIC GRIDLINES)

Updated rear parking camera offers improved resolution on radio screen, thanks to digital signal, displays dynamic grid lines that move according to steering wheel turns helping driver to easily complete parking maneuvers by showing vehicle path. Compatible with the whole new Uconnect™ 5, 7' and 10' radio offer.

FOG LAMPS (WITH CORNERING FUNCTION)

Fog lamps option now includes cornering function to provide greater side visibility in the dark, fog lamps switch on automatically when vehicle turns at low speed.

A new efficiency.

A legacy that came from over 40 years of tradition; could it evolve furtherly? The answer is yes.

The new generation of powertrains MultiJet₃ are developed to ensure you: Top **Efficiency** levels with reduced fuel consumptions, emissions and weight; **Durability** up to 300.000 km thanks to industrial type design; peerless **Comfort** made possible by higher torque elasticity and reduced noise.

Ducato evolves its tradition again, with no compromises on power and performances. You and your work will always be a step ahead.

"One mission, one engine".

Ducato burst into the market with a more reliable new diesel engine technology reaching the third generation.

The complete line up of Euro 6D-Final (Light Duty Homologation) and Euro VI Step E (Heavy Duty Homologation) 2.2 MultiJet₃ engines will represent the adapted solutions to the different needs, efforts, roads and conditions that your work will require.

The MultiJet₃ 120 hp is the perfect fuel-efficient solution dedicated to urban environment. The MultiJet₃ 140 hp is the "core" power unit, progressive in all conditions with high torque availability; the right compromise between power and consumption. The MultiJet₃ 160 hp "Power" is the best choice for who's wondering something more from its tough and long missions. The MultiJet₃ 180 hp "Power" is the excellence for severe missions and terrains, heavy conversions and for who's aiming the top level performances and comfort.

120 HP

Displacement (cm³): 2.184

N° of cylinders, layout: 4, in line
-industrial type design

Fuel system: electronically controlled Common Rail MultiJet₃ direct injection with variable geometry turbocharger and intercooler

Power: 120 hp (89kW) at 3500 rpm

Power: 180 hp (130kW) at 3500 rpm

Torque - coupled with manual transmission: 380 nm at 1400 rpm

Torque - coupled with automatic transmission: 450 nm at 1400 rpm

Light duty homologation, emission level:
Euro 6D-Final

Heavy duty homologation, emission level:
Euro VI step E

HEAVY DUTY HOMOLOGATION

Designed specifically for converter applications, heavy duty homologation is possible with a kerb weight starting from 2.280 kg and is mandatory when it exceeds 2.740 kg.

New Ducato comes with a wide offer Euro VI step E powertrains in heavy duty homologation: 140 hp, 160 hp "Power" and 180 hp "Power" both with Manual and Automatic transmission, keeping the same torque and power curves of corresponding light duty applications.

MANUAL TRANSMISSION. Engine coupling: Dry single plate clutch with hydraulic release device. N° of gears: 6+R -
AUTOMATIC TRANSMISSION. Engine coupling: Torque converter, with electronic electro-hydraulic control system. N° of gears: 9+R

Hit your target destination.

Get the best of your working day with the new 9 speed automatic transmission.

Your work may lead you on different roads, various traffic conditions and several situations, but thanks to the all-new 9-speed automatic transmission you can forget thinking about constantly shifting gears. The new 9-speed automatic transmission is designed for your best driving pleasure. A modern torque converter has taken over the conventional clutch, allowing to shift comfortably and efficiently. This assures the perfect gear is always engaged without effort and above all with the best fuel consumption optimization.

Moreover the new 9-speed automatic transmission allows the driver to select the best driving mode according to his mission: starting from Normal for the perfect balance between performance and economy, through ECO for a fuel economy goal, to Power for more striving missions with uphill or full loads. Changing gear will not affect only your driving but your whole working day, more and more thoughtless with Ducato.

Stop dreaming big! Go bigger!

Roomy and flexible,
new Ducato offers you
all the space you need.

Whatever your mission is, with its great versatility and best in class cargo area volume up to 17 m³, Ducato will reveal itself as a trusted partner offering you all the room your job will need.

Ducato truck is wholly conceived in house by Fiat, which designs it with unique potential in comfort and capabilities. Enjoy its wide loading surface, from 4.9 to 8.5 mq, its practical side-boards, rear boarding folding step and its very convenient non slip surface: every detail is designed to make your work more and more efficient and lighter to you.

3-way tipper version.

Backway tipper version.

Leave your mark.

Ducato changes the way you make your working day, but it's not the only one, everyone must play their part and you also can you leave your mark in this change.

Have a great time choosing among several available features, such as the Double Usb charging port or the Eat and Work Seat bench or even New Automatic Climate Control. You will be spoilt for choice and your vehicle more and more stylish.

KEYLESS ENTRY AND GO
With Keyless Entry you can easily unlock/lock all the cabin and cargo doors of the new Ducato, without actually using your keys. With Keyless Go you can start and turn off the vehicle without using the keys. As a support to specific missions, doors can be locked and unlocked by keeping engine on.

ELECTRIC PARKING BRAKE
The new electric park brake provides greater comfort in everyday usage. Driver can activate holding mechanism by a dedicated switch located on dashboard; functionality can even be automatically enabled through a specific instrument cluster setting.

WIRELESS PHONE CHARGER
Improved connectivity and comfort onboard, allowing to easily place and charge a smartphone in a safe and firm place on the dashboard.

EAT AND WORK SEAT BENCH
Conceived to be the perfect assistant for driver and passenger during work times and breaks is equipped with a front table that can accommodate notebooks, tablets, lunch trays that can rotate towards occupants for maximum comfort and a rear zone organized with cupholders and storage vanes.

FULL-LED HEADLAMPS
The new high performance full LED headlamps become the new top-level offer in terms of exterior lighting. Composed by a new DRL LED "ray of light" with evolutionary family feeling and sharper style, LED high beam and low beam and a LED turn indicator with swiping effect.

FULL DIGITAL COCKPIT
A 7" digital TFT color display and two side digital gauges for RPM and fuel level. The central display provides a complete set of vehicle setups and info, offering great reconfigurability to any driver's needs.

DOUBLE USB CHARGING PORT
USB charging port on dashboard gets an updated design becoming double USB A + C standards.

230V POWER SOCKET
This option helps to easily charge electric devices such as laptops, electric tool batteries, tablets, smartphones and other low power appliances that require electricity up to 150 Watts.

FOG LAMPS
Fog lamps option now includes cornering function to provide greater side visibility in the dark, fog lamps switch on automatically when vehicle turns at low speed.

DRL LED ON HEADLAMPS
You can spot a Ducato at once from its LED daytime running lights. LEDs last longer than normal bulbs and reduce fuel consumption because they use less electricity.

AUTOMATIC CLIMATE CONTROL
New design of climate control with a wide central display, showing setup of air temperature, air distribution and ventilation speed. System offers 7-way distribution and a new "Max A/C" function to boost cooling performance.

HEATED WINDSCREEN
Quicker windscreen defrost and defog even in extreme cold climate conditions.

TECHNO DASHBOARD TRIM
Handy air flow adjustment, available in satin chrome finiture with the techno dashboard option.

CARGO LED DOME LAMP
The load compartment can be illuminated by a powerful LED with a neutral white color and infrared sensors; three dimensions based on vehicle wheelbase.

LEATHER STEERING WHEEL AND GEARBOX LEVER
A more comfortable and engaging rim design and new commands located on and behind lateral spokes wrapped with leather, satin chrome decorative bezels and glossy black commands. Redesigned gearbox command on both manual and automatic versions, available also with lower body in leather.

ADJUSTABLE PNEUMATIC SUSPENSIONS
Offers self-levelling function and possibility to decrease load threshold when vehicle is parked, activating specific switches on dashboard. Vehicle is always balanced independently from load distribution.

Also style is a performance.

Ducato shows itself in all its personality, turning out to be the perfect combination between efficiency and style, a sober elegance to get noticed.
